PUBLICATIONS

Books

Edited Book Volumes

6. N. Viswanadham, Perspectives in Global Science and Technology Communications, Proc. of a Seminar held at INSA, Indian National Science Academy, and New Delhi, India, 1998.
Book Chapters

Refereed Journal Publications

71. N. Viswanadham, Supply chain automation: The past, present and future, IEEE Robotics and Automation Magazine,

Conference Publications

3. N. Viswanadham and V. V. S. Sarma, Equivalent optimal control problems for multi-input systems, preprints JACC, The University of Texas, Austin, Texas, USA, pp 721-725, June 1974

17. N.Viswanadham, P. Sen and A. Ramakrishna, Control of linear systems through specified input channels: A frequency domain approach, Conference record Twelfth Asilomar Conf. On Circuits, Systems and Computers, Nov. 1978, pp 422-426, USA.

27. N.Viswanadham and A. Ramakrishna, Observers for Interconnected systems, Preprints of the IFAC Conference on Theory and Applications of Digital Control, New Delhi, India, Jan. 1982, Session 4, pp 1-5.

32. N. Viswanadham and V. V. S. Sarma, Aerospace control systems - an editorial review: Recent advances in servo-mechanisms, design and realization in India, Bangalore, Feb. 1980, India.

35. Y. Narahari and N. Viswanadham, Analysis and synthesis of flexible manufacturing systems using Petri nets, First ORSA/TIMS Conf. on Flexible Manufacturing systems, August 1984, USA.

38. Y. Narahari and N. Viswanadham, An efficient scheme to compute place invariants in a Petri net, Proc. of the National Systems Conf. India, 1984

47. N. Viswanadham and Y. Narahari, Performance modelling of local area network protocols, Preprints of the Indo-US Workshop on systems and signal processing, January 1988, Bangalore, India.
