E-Scholars Programme
WHAT IS THE E-SCHOLARS PROGRAMME?

E-Scholars (short for Engineering Scholars) is a premier programme designed to attract the very best students to read any branch of engineering at NUS.

Students with exceptional potential will be provided with an enhanced educational experience that leverages on academic abilities to nurture well-rounded engineer leaders and innovators.
KEY FEATURES

3+1 STRUCTURE
E-Scholars will read a Bachelor of Engineering degree in the first 3 years and a Master’s of their choice (M. Sc) in their fourth year at NUS. The scholarship covers all school fees for the four-year duration, which includes a living allowance and other benefits and has no bond.

LIVING & LEARNING EXPERIENCE
The vibrant NUS University Town will open its doors to E-Scholars. Cinnamon College residents will read the University Scholars Programme (USP) while RC4 residents will read the University Town College Programme (UTCP) focused on systems thinking. University Town academic programmes are aimed at broadening the student’s intellectual landscape through a truly multidisciplinary educational experience.

DEVELOP A GLOBAL PERSPECTIVE
E-Scholars will enrol in the NUS Overseas Colleges (NOC) programme where students intern at technological start-ups worldwide*. E-Scholars will also have guaranteed admission to the Student Exchange Programme (SEP) to study at some of the most prestigious partner universities globally. Subsidies for both SEP and NOC are available for E-Scholars.

* At locations where a 6-month programme is offered.
FOLLOW YOUR ASPIRATIONS
E-Scholars can chart their own path and do something that matters to them. They will have access to an exclusive, credit-bearing aspirational project that allows them to define and carry out special projects within or outside NUS.

SUPPORT AND ADVICE FROM DEDICATED MENTORS
E-Scholars will enjoy close supervision and mentoring by a selected pool of Faculty staff. Become part of a close-knit community of like-minded individuals!

INTERACT WITH EMINENT LEADERS
E-Scholars can take advantage of a special collaboration with the NUS Institute of Engineering Leadership (IEL), which offers dedicated leadership modules as well as seminars with top engineers, scientists, entrepreneurs and researchers.
ADMISSION

* Upon request, scholarship holders from other organisations may be considered for entry into the E-Scholars, subject to meeting the shortlist and interview requirements.

1. Interested students must apply for the scholarship by ticking the appropriate option in the NUS application form.

2. Applicants are shortlisted based on academic scores and co-curricular activities. All shortlisted applicants are interviewed.

3. Successful applicants are admitted to the E-Scholars programme.
